

SCHOOLS Presents...

# BEST PRACTICES FOR MANAGING AND TREATING SYSTEMIC LUPUS ERYTHEMATOSUS

April 26, 2016 • 12:00-1:00pm

## Goal/Purpose:

This SCHOOLS presentation is the sister tele-presentation to the article in the latest *Progressnotes*, MUSC's medical magazine. MUSC Health rheumatologist Eric Zollars, M.D., Ph.D., provides useful guidance to primary care providers on how to diagnose and treat systemic lupus erythematosus.

## Objectives:

At the completion of this session you should be better able to:

- Recognize that systemic lupus erythematosus (SLE) is appropriately diagnosed based on clinical signs and symptoms together with laboratory findings, but not on the basis of laboratory findings alone.
- Summarize why corticosteroid therapy is not recommended long-term in patients with SLE.

## Instructor:

Eric Zollars, M.D., Ph.D.  
MUSC Health
