

Results-Based Accountability™ Training

MOVING FROM TALK TO ACTION WITH RESULTS-BASED ACCOUNTABILITY

Results-Based Accountability™ (RBA) is a disciplined way of thinking and acting to improve entrenched and complex social problems. It is a data-driven decision-making process to help communities and organizations get beyond talking about problems to solving them.

The blended training has two parts:

1. Online module focused on foundational principles.

2. Live session that covers application & implementation. Participants will complete an example turn the curve activity throughout the session.
