

## Objectives:

Upon completion of this program, the pharmacy technician should be able to:

**Burning at Both Ends: a discussion of Burn out and effective communication in the workplace.**

- Identify current risk of burn out in the workplace.
- Explain different signs/symptoms of burn out and strategies to minimize risk of burn out.
- Discuss different tools and strategies to have effective communication in the workplace.
- Practice using effective communication in group scenarios.

**The Highs and Lows of Medication Safety: A closer look into medication safety in diabetes management:**

- Identify opportunities for reducing patient harm with prescribing, preparing, and administering medications in relation to diabetes management.
- Compare different prescriptions and over the counter medications for diabetes treatment.
- Utilize available tools and strategies to improve medication safety and decrease patient harm.

**Pharm to Table: law review of natural products and how they are regulated:**

- Define complementary, alternative and integrative medicine practices.
- Discuss the regulation of natural products, including associated laws that govern the sale of natural products.
- Discuss legal implications associated with the use and sale of hemp alternatives.

**Get to The Point: Immunization Update 2025:**

- Identify how vaccines work with the immune system to develop lasting immune response.
- Discuss legal and regulatory updates impacting the provision of immunizations.
- Identify updates to the ACIP recommended vaccines for pediatric and adult populations.

**Instructor:** Nicholas Silvestri has been with MUSC since August of 2017 in various roles. He received a Bachelor of Science in Biological Sciences from Clemson University in 2017 and his Doctor of Pharmacy from MUSC College of Pharmacy in 2021. He is currently a Clinical Pharmacy Specialist in Endocrinology and Primary Care for MUSC Health.

Nicholas has done extensive research and has presented several times. He belongs to numerous organizations, associations, and committees and serves in various roles, from chair to facilitator to mentor.

Nicholas has received special recognition and honors, just one to include the pharmacy outstanding practice award. He assists with internal MUSC clinics and gives back to the community in several ways, including being a part of the medical staff at Camp Adam Fisher a summer camp for kids with type 1 diabetes.
